Assistant Commissioner for Patents

Sir:

In compliance with 37 CFR 1.97 and 1.98, the Applicants would like to bring to the attention of the U.S. Patent and Trademark Office information that may be helpful in the examination of the above-identified patent application.

Applicants are submitting herewith a copy of the International Search Report from counterpart application PCT/US 00/34202. In addition, applicants are submitting a copy of EP 385 632. The other documents cited on the Search Report were submitted with the prior Information Disclosure Statement.

Applicants point out that US 3,326,985, US 5,403,912 and EP 385 632 (corresponding to US 4,970,295, previously submitted) are cited as category "X", "document of particular relevance; the claimed invention cannot be considered to be novel or cannot be considered to involve an inventive step when the document is taken alone."

Applicants understand that International Search Reports are considered by Examiner's, but not listed on the front of patent applications and therefore are normally crossed-off on form PTO SB 08's. Therefore, unless indicated on the record otherwise, it will be assumed that the International Search Report has been considered by the Examiner.
